Seaport Next Generation (NXG)

US Navy

enGenius is a Prime Contractor on the US Navy, Naval Sea Systems Command Seaport Next Generation (NXG), a Multiple Award Contract (MAC) used by US Navy activities and field offices with standardized and efficiency for industry to provide engineering, scientific, and technical services across the broader Navy Community. The scope of this contract includes:

♦ Engineering Support Services

Supports application of engineering disciplines to technically support the research and development of new and existing Naval capabilities and systems, technically support development of significant alterations to existing systems, support integration and interface of existing equipment or software into different applications or platforms to support the warfighter, and support evaluation of foreign or non-developmental systems, equipment, and technologies.

- Engineering, System Engineering, and Safety and Process Engineering
- Software Engineering, Development, Programming, and Network Support
- In-Service Engineering, Fleet Introduction, Installation and Checkout
- Measurement Facilities, Range, and Instrumentation Support
- Interoperability, Test and Evaluation, Trials Support
- Research and Development Support
- Modeling, Simulation, Stimulation, and Analysis Support
- Prototyping, Pre-Production, Model-Making, and Fabrication Support
- System Design Documentation and Technical Data Support
- Reliability, Maintainability, and Availability (RM&A) Support
- Inactivation and Disposal Support
- Biochemical Engineering Support

♦ Program Management Support Services

Applies the business, financial management, and technical disciplines required to support planning, organizing, staffing, controlling, and leading team efforts in managing acquisition programs such that the result places a capable and supportable system in the hands of the warfighter when and where it is needed, and does so at an affordable price.

- Financial Analysis and Budget Support
- Quality Assurance (QA) Support
- Functional and Direct Programmatic Administrative Support
- Professional Development and Training Support
- Analytical and Organizational Assessment Support
- Database Administrators
- Public Affairs and Multimedia Support
- Logistics Support
- Configuration Management (CM) Support
- Information Systems (IS) Development, Information Assurance (IA), and Information Technology (IT) Support
- Computer Systems Analysts
